

# A group with no financial interests or ties to the accident has declared publication of their “Power Plant Accident Investigation Report”!

<http://www.f-pj.org>

Many investigation reports have been released by the government, TEPCO etc., regarding the accident which occurred in the first reactor of the Fukushima nuclear power plant. In addition, it can also be assumed that many knowledgeable scholars and so forth will also release their own publications regarding facts they uncover as they surface as well. However, we cannot deny the possibility that the intentions and thoughts of those who are at the top of operations related to the accident, as well as those who have large financial interests in these operations, reflect market mechanism drivers such as whether or not they will be able to write a book and become a best seller etc.. Therefore, it is crucial that another investigation report be produced by a group of people with no interests or connections of any kind to the incident to get as close to the actual facts as possible. We, the founders of this “Fukushima Project”, have taken a stand to publish such a report. Mr. Mizuno Hiroyuki (Vice President at

Osaka Electro-Communications University and the former Vice President of Panasonic) is the head representative, originator and promoter of this project with Eiichi Yamaguchi (Doshisha University Vice Director of the ITEC department) as the Committee Chairman. The fees incurred in the creating and publishing of this Investigation Report are being handled through donations. This project is strictly being done on a nonprofit basis and upon completion, this book will be released at the lowest affordable price possible. Any remaining balance from donations or profits from sale of this book will be donated to the victims affected through an appropriate organization (such as Red Cross). Currently, donations are being accepted, and although names of individuals, groups or organizations will be included in the acknowledgments section of this book, names can also be removed at the donor's request.

# 利権に関係のない第三者による、 原発事故の調査レポートを刊行!

<http://www.f-pj.org/>

東日本大震災における福島第一原子力発電所の事故については、国や東京電力による調査レポートや、多くの有識者による書籍の刊行が予想される。だが、そこには、主導者・資金提供者の意向や、本が売れるかどうかといった市場原理の働きが投影される可能性は否定できない。そこで、利権に無関係な第三者の立場から、真実に迫る調査レポートを刊行しようと、「FUKUSHIMAプロジェクト」が立ち上がった。代表発

起人は水野博之さん(松下電器産業〈現パナソニック〉元副社長)、委員長は山口栄一さん(同志社大学ITEC副センター長)が務める。

調査レポートの作成・刊行にあたっては、諸経費を寄付金によってまかない、制作委員会は無報酬で遂行。レポートは書籍化し、極力低い価格で市販され、残額が
